HIGHLIGHTS of 2022

The strategic direction of UIT is towards modern Technologies in the fields of:

- Video Conferencing
- WFH (Work From Home)
- Omnidirectional Contact centers
- VoIP
- Data Protection

So, a few years ago we partnered with a few big names:

.. and in 2021 added New Partnerships:

About UIT

Founded in 1992, **United Information Technology** has rapidly emerged as the leader in the IT service and support field. Our finger prints are all around the country. Known for reliability and high quality, from small volume businesses to Multi-national companies rely on our services.

At UIT, we believe that Business Continuity is a vital element in all businesses. So, it is our job to bring the down time of the customers' operations to the minimum limits.

Our mission:

Delivering simple and affordable products and services to minimize downtime, maximize Return on investment, and - ultimately - satisfy customers' needs.

Our Products
